ABOUT ME

Candice got her digital creative start in 1995 when she joined James Altuchur's boutique web shop, Reset. Inc. and later, Adi Sideman's W3 and web series media shop, Oddcast out of New York City. It was there that she dove into web integration, sound editing, video editing, animation, and graphic design. Candice currently works remotely as a Sound Designer for live theatre, and creatively produces original web series and podcasts with various artists.

PERSONAL PHILOSOPHY

"Never doubt that a small group of thoughtful, committed people can change the world. Indeed. It is the only thing that ever has."

- Margaret Mead

Sometimes, we are more than a graphics designer or a website developer... As we begin the collaboration with clients, it becomes more than just a creative relationship. The collaborative process opens up a willingness to trust another and explore.

Often times the client finds hope in the uncharted territory or bears witness to the blossoming of seeds that unfold into an entire picture never before seen.

It's about common ideas obtaining uncommon results.
